PROJECTION

QUICKFOLD PROJECTION SCREENS

with foldable structure, from 120" to 300"

Technical Features

- **Screens** available with following projection fabrics: SOFT WHITE and RETRO (see technical specifications on pages 1-2-3)
- **Frame 32x32 mm section, in extruded aluminium**, natural anodized
- **Anchoring of the fabric to the frame** thanks to **press button system** on the front structure for perfect flatness and quick assembly
- **Screens come standard equipped with a pair of side supports** to be used where it is not possible to install the screen to the wall, the type of supports depends on the screen size in order to ensure maximum stability
- **Robust flight-case** with handle and transport wheels
- **Prices** quoted include: foldable frame, foldable side stand supports, front projection SOFT WHITE fabric, RETRO fabric for rear projection and flight – case
- **Packed in sturdy carton** volcano Type.

\* Reinforced structure. These screens present welding on the projection surface and are delivered in two packings.

Size, in cm, weights expressed in kilograms, diagonal expressed in inches (")

# QUICKFOLD PROJECTION SCREENS

with foldable structure, from 120" to 300"

Projector screens light and stable, easily transportable, the structure, made of anodized aluminium, is lightweight but stable and rigid; two side supports are fixed to the frame with simple knobs - transportation is enabled by a rigid suitcase on wheels (flight-case) with handle for transport - the package includes a front projection white fabric, seamless up to 200 " format, fixed to the structure with simple snaps, plus a rear projection fabric with identical characteristics. The screen sizes above 200" have a reinforced structure (double profile combined with crossbars at regular intervals) which guarantees maximum stability.
