# S2 Projector Mount

Installation Steps

1. Fix the mounting bracket.
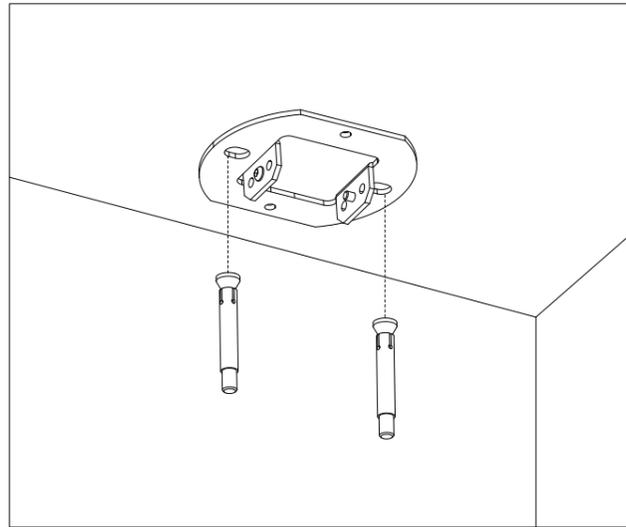

2. Fix the projector with the claws.

Make sure the projector is in a proper direction, then fasten this angle-adjustment screw.
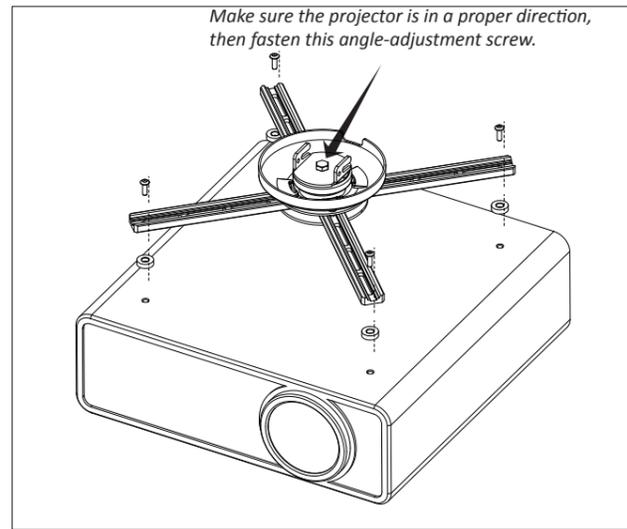

3.Hang the claws and projector into the mounting bracket.

4. Tighten the screws.

Note: For easy to reach out the screw, rotate the decorative cover till its gap be aligned with the screw.
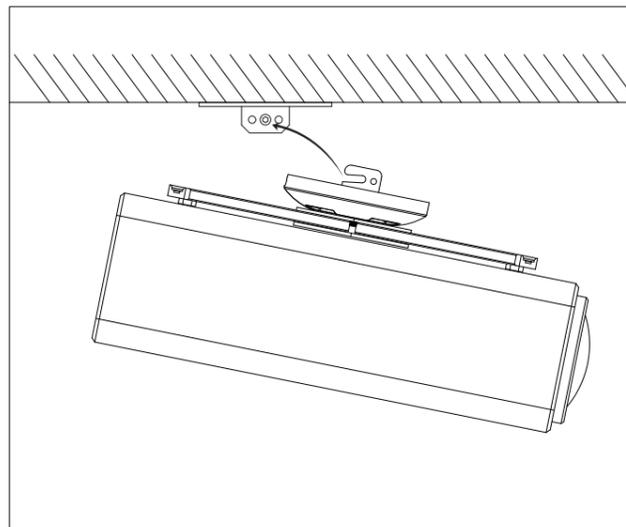

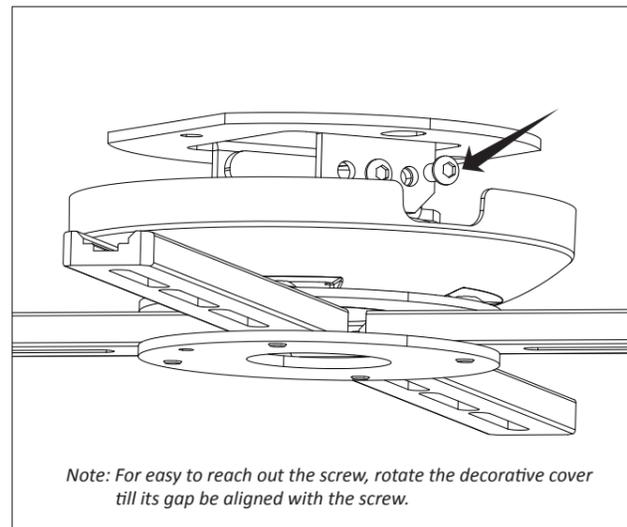

5.Adjust the angle of the projector.

Loosen ◄┈┈┈┈► Tighten
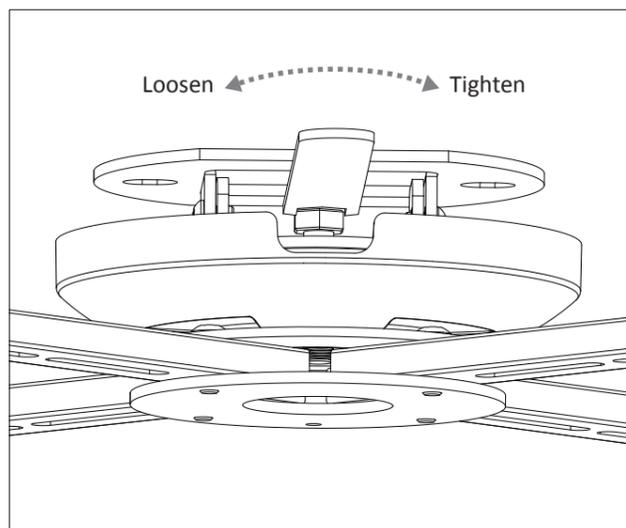

6.Adjust the decorative cover.

Push the decorative cover up
