

ANOL

LuxVision

World's First 4K 120Hz UST Projector with Optical Shift

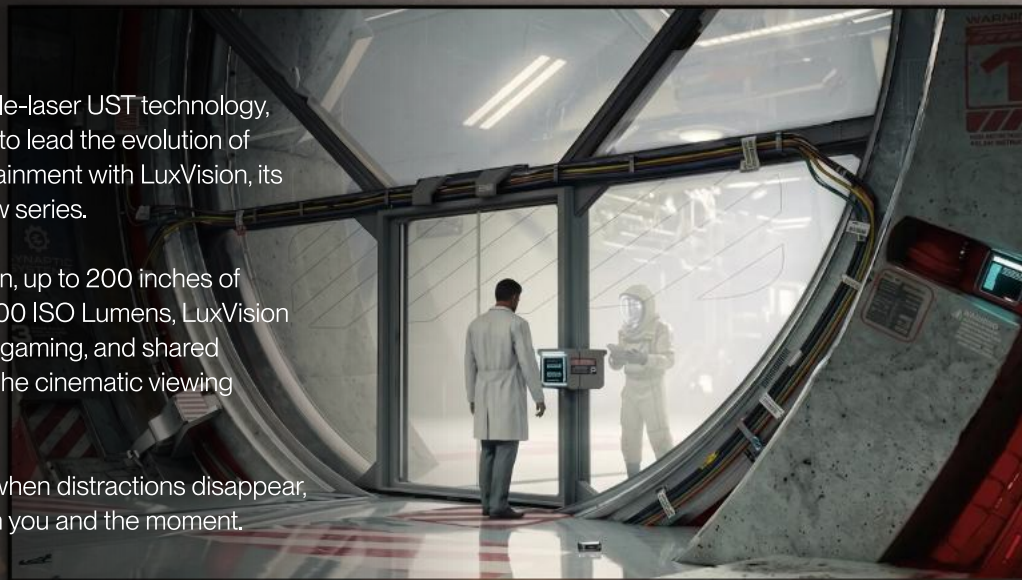

| Nothing Between
| You and the Moment

Meet LuxVision

As a pioneer of RGB triple-laser UST technology, AWOL Vision continues to lead the evolution of big-screen home entertainment with LuxVision, its flagship ultra-short-throw series.

Delivering fluid 4K motion, up to 200 inches of cinematic scale, and 6000 ISO Lumens, LuxVision elevates movies, sports, gaming, and shared moments — redefining the cinematic viewing experience.

True immersion begins when distractions disappear, leaving nothing between you and the moment.

120HZ

Wonder at Full Speed

4K Detail, Preserved Through 120 Frames a Second

Every fast-moving moment comes to life with exceptional clarity and fluidity. By processing nearly one billion pixels every second, LuxVision keeps motion sharp, smooth, and naturally detailed — from high-speed gaming to live sports.

■
Light That
Owns the Day

6000 ISO Lumens Keep Big-screen Colour Vivid, Even in Daylight

Built for premium living spaces, LuxVision delivers vivid visuals from daylight to movie nights. RGB triple laser, Dynamic Tone Mapping, and a 7-level adjustable IRIS system precisely control colour, contrast, and light — bringing every scene to life with richer depth, detail, and realism.

■ Effortless Precision at Its Peak

One Touch Optical Shift with Picture Quality Intact

Advanced optical engineering delivers greater setup freedom without compromising image quality. One-touch vertical lens shift enables flexible image positioning, preserving true 4K detail for a precise, uncompromised cinematic experience.

Purity Reigns Supreme

Anti-RBE II for Pure Viewing Across 2D and 3D

Invented by AWOL, Anti-RBE II technology reduces visual distractions for cleaner, more comfortable viewing across movies, games, and 3D experiences, especially in fast, high-contrast scenes — while 4K 120Hz helps motion stay clean and stable. Pure visuals. Uninterrupted immersion.

Form Ascendant

Every Colour, Material, and Finish Made to Belong

Inspired by the Parthenon's architectural harmony, LuxVision transforms classical column rhythm into a modern UST form — sculptural, timeless, and refined. With customisable CMF options, every finish is tailored to complement the mood, material, and tone of your home.

| Game Room

Stay in the Action

From high-speed racing to intense action, every turn and reaction feels Fast, fluid, and responsive.

| Home Theater

Immersion Take Over

Cinematic scale, clarity, and depth let the room fade away until nothing remains but the story.

| Patio

Take Wonder Outside

Bring big-screen cinema into the open air, with vivid, fluid entertainment made for nights under the stars.

| Panoramic Bedroom

Grand Cinema, Effortlessly Placed

Turn the bedroom into a private cinema with effortless setup without reshaping the room.
