

FOLDABLE FRAME SCREEN (FFS)

This screen is a very practical screen when you are to show movies/presentations to larger groups. Easy to assemble and take apart, and convenient to work with for the people on the road who needs to make big size quality presentations. A very common product for rental services and public environments.

FRAME PARTS/COLOUR

The frame parts are made of anodized aluminum. All the frame parts are mounted together (no risk to loose any parts) and are easily folded.

SCREEN FABRIC/GAIN

For a natural picture, the screen fabric is made of PVC with a matte white surface. The gain value is 1,0. Extra screen fabrics for rearprojection are available as an accessory (see price list), this fabric has a gain value of 0,8.

MOUNTING

The screen fabric is mounted on to the frame with push-bottoms. The screen can be mounted on a few different heights depending on size and model.

USING THE SCREEN OUTDOORS

The screens makes a big windbreak when using it outdoors, do not use it in winds over 5 m/sec. The screen must be anchored, use the enclosed cord and anchorage.

BLACK BORDERS

The picture area is surrounded by 10 cm wide black borders.

TRANSPORTATION

The screen is delivered with one nylon bag with handles, the screen fabric is stored in a separate inner bag.
