

TENSIONED PROJECTION SCREENS

electric screens with side tensioning system

Electric projection screens TENSIONED: elegant and silent, they fit perfectly to any type of environment, suitable for domestic application as well as business ones. The side tensioning system consists of strong and high quality elastic cords that, passing through the eyelets, along the sides of the canvas, create a lateral curvature of the surface that preserves the fabric from the risk of folds in the rolling up phase despite the presence of the eyelets .

Technical Features

- **Screens** realised with the following projection fabric SOFT WHITE, SOFT MATT WHITE, SOFT WHITE TRANSOUND, SOFT GREY (see technical data sheet at pages 1-2-3)
 - **Available** in the following formats: square 1:1, video 4:3 e HDTV 16:9, **with or without outer black borders of 5 cm and upper black drop** of variable height: the black edging increases the definition of the image projected on the screen
 - **Screen lowering from the rear side of the box**, on demand it can be provided with front lowering system
 - **Side tensioning system** by strong and high quality elastic cords that pass through the eyelets along the sides of the canvas, starting from the bottom, creating a side arm that preserves the fabric from the risk of folds in the rolling up phase despite the eyelets.
 - **Extruded aluminium case, epoxy powder coated, in white** RAL 9010 colour, section mm 121x114mm, on the lower side a longitudinal slot with rounded edges allows the descend of the projection screen.
 - **Internal silver anodized aluminium tube for fabric wind up**
- \varnothing 61 mm or \varnothing 80 mm, which includes a reliable electric motor mounted on special rubber silent blocks.
 - **Powerful electric motor, single phase, IMQ, CE mark, 5-years guarantee** from purchasing date, power supply 200V-50-Hz, absorption 0,5A, protection IP 44, 17 RPM., on the standard version the motor is mounted on the right hand side.
 - **Screen up and down electric inverter, standard supplied**
 - **Screen up and down limit switches factory adjusted**, possibility of different settings if necessary. The screen can also be stopped at intermediate height by pressing the electric inverter switch
 - **The screen housing end caps** are in galvanized metal, epoxy powder coated, in white colour RAL 9010
 - **Counterweight** with nice design in **white** colour
 - **Robust individual packing** in double cardboard type volcano
 - **Product CE certified, 12 month warranty** to the conditions indicated on the manual
 - **Accessories on demand:** external radio remote control, integrated radio control, spacing wall brackets
