- M4x5 Positioning Screw (2pcs)
- M3x10 Cross Machine Screw(4pcs)
- M4x10 Cross Machine Screw(4pcs)
- M5x10 Cross Machine Screw(8pcs)
- M5x30 Cross Machine Screw(4pcs)

- M3x20 Cross Machine Screw(4pcs)
- M4x20 Cross Machine Screw(4pcs)
- M5x20 Cross Machine Screw(4pcs)
- M3x30 Cross Machine Screw(4pcs)
- M4x30 Cross Machine Screw(4pcs)
- M6 Drop In Anchors(3 sets)

- Ø 16x10 Rubber Insert(4pcs)
- Ø 16x20 Rubber Insert(2pcs)
- Ø Washer(4pcs)
- Ø Spring Washer(4pcs)
- Spanner (1pc)

## GPC

### Assembly

The main bar③ and the subsidiary bar④ are fixed together from factory. Loosen the screws of main bar③ and subsidiary bar④. The distance between projector and ceiling can be adjusted according to the distance of install holes between main bar③ and subsidiary bar④. Please refer to H in specification table.  
(Note: GPCM-C100 is no subsidiary bar and no stretch function).

## GPM

### Assembly

- 1.GPM is combined by top bracket⑦ and low bracket⑧. Press the release button for separating the top bracket and low bracket.
2. There are special security holes for avoiding the falling of projector (cooperate with security steel wire).

### Usage

1. Press the release button for separating the top bracket⑦ and low bracket⑧, refer to figure 3 and figure 4. Then, adjust the half-cycle junction⑤ and ensure that the groove of half-cycle junction to be align the direction of security lock⑨, and then put it on the subsidiary bar after assembling. Finally, the glider is installed on the half-cycle junction for fastening the main bar⑥ as the figure.
2. Connect the projector and low bracket. Figure 5

Figure 3

Figure 4

Figure 5

## Three steps for installation

A. Please install GPC support bar assembly on the ceiling

B. Please connect the GPC support bar assembly and GPM projector fixation

C. Adjust your desired angle.
