

No Limit

Motorized roll up projection screen ideal for large venue installations.

Available in sizes from 8 to 50 m wide.

- ✗ Very large-sized modular motorized roll-up screen.
- ✗ 2 integrated tubular 220V motors.
 - ✗ fitted with 2 adjustable end-stops.
 - ✗ torque: 110 Nm.
 - ✗ rotation speed: 17 rpm
 - ✗ rising speed of the projection surface: +/- 10 cm/sec.
- ✗ The black anodized extruded aluminium housing is fitted with longitudinal steel reinforcements that provide it great rigidity.
- ✗ Tubular anti-bending system over the entire length.
- ✗ Mounting brackets every 2 to 3 m with numerous possibilities to adjust the level.
- ✗ Accessories for mounting under a pole (50 mm theatre bar or aluminium truss).
- ✗ Somfy radio remote control supplied as standard.
- ✗ Most of our PVC fabrics can be fitted into this system.
- ✗ The Nolimit can be shipped in one piece up to a maximum of 12 metres wide, in a wooden box especially provided for this purpose.
- ✗ If wider than 12 metres, it has to be assembled on-site by a team of specialised technicians.
- ✗ The maximum size is 10 m high and 50 m long.
- ✗ Options:
 - ✗ DMX control.
 - ✗ key switch.
 - ✗ black borders and extra-drop.
 - ✗ wall-mounting brackets.
 - ✗ programming of multiple pre-defined stops.
