

# FLAT ELASTIC WRAP AROUND

**FLAT ELASTIC WRAP AROUND** is a smart solution for fix installations both in professional, corporate and Home Cinema environments.

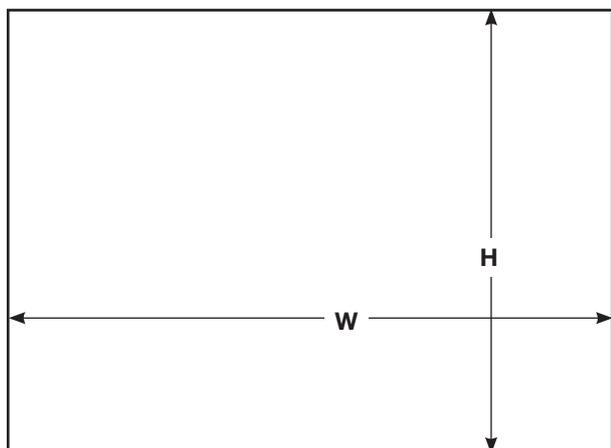

This new product is based on an edge less fixed frame screen that allows to achieve a

perfect, neat and design result, combining the best projection performances together with the most demanding architectural needs.

*Available in 1:1, 4:3, 16:9, 16:10 ratios and bespoke sizes.*

- 
- Total frame screen dimension is the same as the viewing area
  - Total frame depth including wall mounting brackets: 33 mm.
  - Smart design and easy to install
  - Wall mounting brackets included
  - Wall mounting brackets on upper and lower frame for SAFE installation
  - Fixing brackets are NOT VISIBLE once the screen is mounted onto the wall
  - Easy and quick fixing of the projection surface to the rear side of the frame with galvanized rods and rubber bands
  - Flame retardant projection surfaces – classification M1 and B1

# TECHNICAL SPECIFICATIONS

Anchoring system - Rear side view

Glance to the corner - Front side view
