

PA Fixed frame screen, this is an ideal form of a Projection screen, which enhances a function of a screen fabric characteristic.

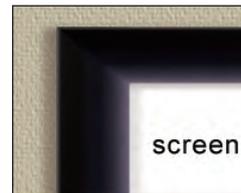

- Spring-Fixing type which easily tenses a screen.
- The springs flexibly cope with an environmental change of a screen such as the moisture and also enhance the maintenance performance of the screen fabric.
- A round-shape aluminum frame provides high rigidity and prevents from being reflected by the edge.
- Flocky finish frame makes a premium feel.
- High flatness screen which is optimum for a short focus projector.
