

Same VAVA Laser TV

**Different  
Color**

**150" 4K Laser Projector**

Bring the Theater Home

150"

# Ultimate 150" Projection Area

Enjoy a full theatre-like experience at home. Easily adjust the projection between 80"-150" to be immersed in your favorite shows, movies and games.

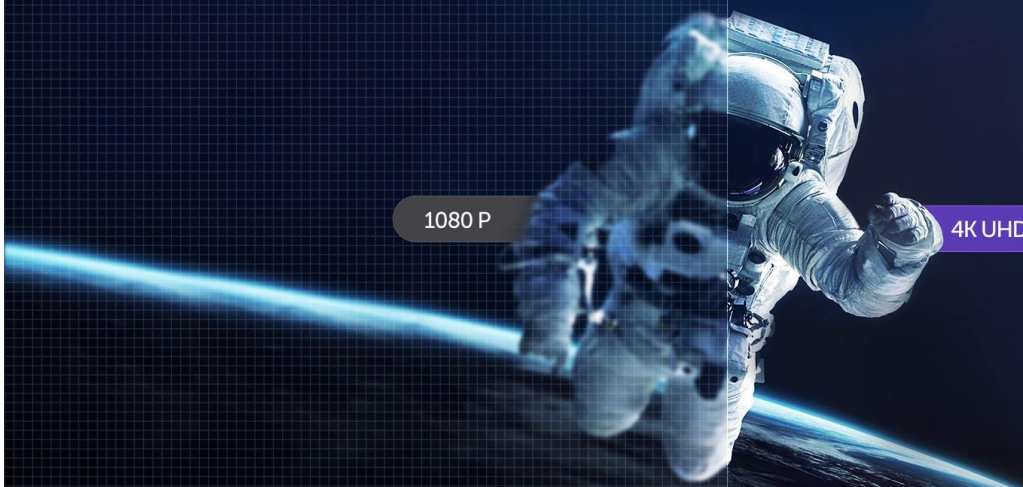

## Feast Your Eyes on 4K UHD

Mesmerizing 4K UHD resolution thanks to Texas Instruments Digital Light Processing (DLP) technology, more than 8 million pixels sharply display every nuanced detail in your games, images and movies.

1080 P

4K UHD

**2500 ANSI Lumen Image Brightness**

### **Punchier HDR10**

Awe-inspiring visuals with deeper colors, higher contrast, fuller saturation and sharper imagery.

**ALPD<sup>®</sup> 3.0**

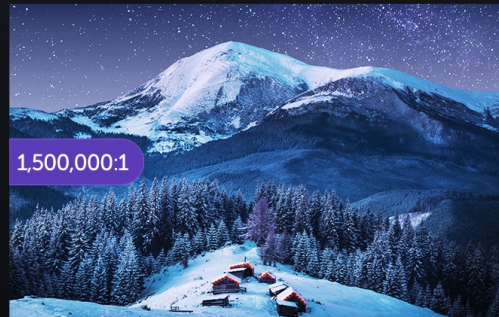

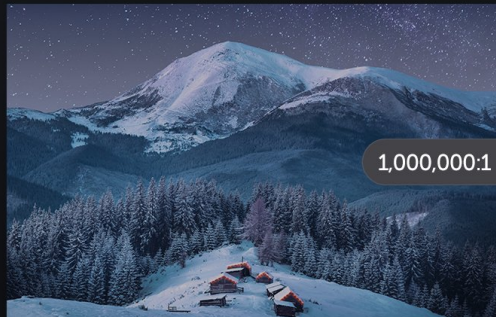

### **Cinematic Laser Light Source Tech**

Appotronics's renowned ALPD 3.0 Laser Light Source technology brings stunning depth and realism all in a seriously compact and long-lasting unit.

\*Note: ALPD 3.0, the critical large-format display technology for lasers, is used in 17,000+ theaters worldwide.

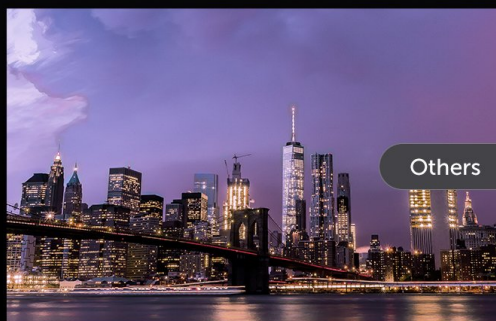

## 1,500,000:1 Dynamic Contrast See the Splendor Even in Dimness

Details lost in the theater's 1,000,000:1 contrast are recovered in VAVA's 1,500,000:1 vivid contrast, promising clear quality with HDR and a super high 3840 x 2160 resolution.

## 85%+ NTSC Color Gamut Elaborated Details in Full Color

Adopting a three-segment color wheel, a NTSC range of 85%+, together with a red light projection rate improved by 60%-80% to display the most accurate colors for enhanced purity and brightness.

## Harman Kardon Stereo Sound Incredible Surround-Sound Experience

Stunning images should be complimented by premium sound. The VAVA 4K Projector is an entertainment powerhouse providing cinematic sound through a powerful Harman Kardon speaker, two 30W drivers, Dolby and DTS decoder with additional vocal enhancing tech.

DESIGNED BY  
harman/kardon

7.2 inches

## Ultra Short Throw Larger Projection, Shorter Distance

Breaking the mold of conventional projectors, VAVA's 0.233:1 throw rate projects epic visuals from a much narrower proximity. Place on a tabletop or install it to a wall mount, just 7.2" away from the wall, to throw an impeccable 100" sized image, wire free and obstruction free.

Near-Wall Placement

Easy Movement

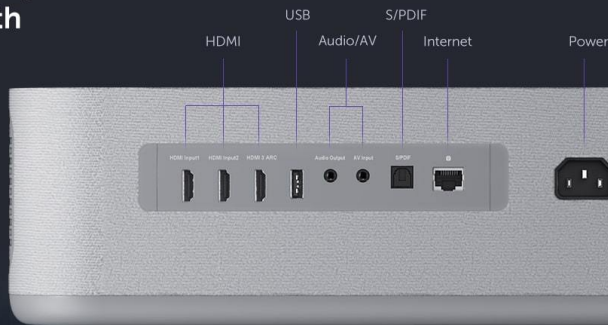

No Extra Wires

Tabletop Friendly

## Complete Connectivity Fully Compatible with Other Peripherals

With 9 ports for various peripherals, you have every connection scenario sorted. Connect to your HDD player, USB hard drive, gaming console, computer, TV set-top box, speaker, etc.

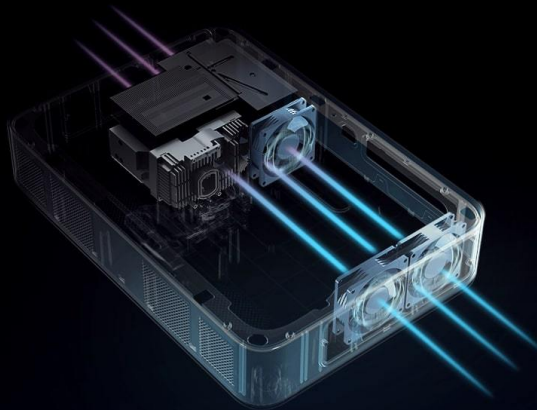

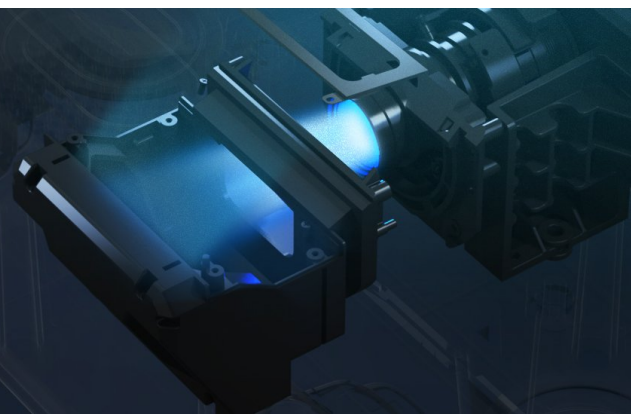

## Intelligent Eye Protection Keeps Eyes Safe for Comfortable Viewing

Cutting-edge projection technique with smart IR sensors detect and immediately dim the lasers to the lowest level, upon human detection, for effective protection for your eyes against radiation and fatigue.

## Industrial-Grade 25,000hrs Lamp Life 10x Longer Than Conventional Bulbs

Appotronics's renowned ALPD 3.0 Laser Light Source technology brings unwavering power and long-term reliability for 25,000 hours – watch at least 10,000 movies before changing the bulbs.

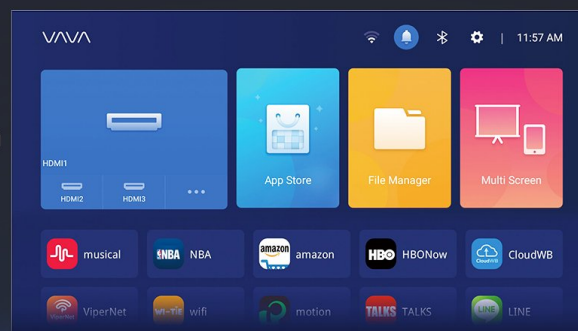

## Unrivalled Temperature Control 3 Fans for Superior Cooling

Typical laser projectors easily succumb to overheating issues. VAVA's 4K projector utilizes 3 fans with dedicated air outlet channels to optimize ventilation for a high cooling capacity and low noise operation.

## Smart Android System

Access and download a plethora of applications for endless entertainment.

# Sophisticated Modern Projector Designed to Harmonize with Your Home

Contemporary unit with an elegant cloth top finish can be seamlessly placed in your living room, study or anywhere in the home.

## Specs

### Specifications

#### Projection System

Display Type	DLP	Light Source	Laser (ALPD 3.0)
Throw Rate	0.233	Resolution	4K
Brightness	Up to 2500 ANSI Lumen (100%CLO)	Luminance Uniformity	>88%
Contrast Ratio	1,500,000:1	Projection Size	Up to 150"

#### Smart TV System

System	Android 7.1	App Store	Aptoide
RAM	2GB	EMMC	32GB
Motion Detection	Yes	HDR10	Yes
Keystone Correction	Yes ( 8 Point )	Electric Focus	Yes
Multiscreen	Yes		

#### Audio

Speaker	Harman / Kardon, 60W of Power	Bluetooth In	Yes ( Connect with phones )

Bluetooth Output	Yes ( Connect with BT speaker )	dts-HD	Yes
Dolby Audio	Yes		

Interfaces

HDMI	3	USB	1
Video In	AV 3.5	RJ45	1
Audio Out	Line Out 1 (3.5mm)and S/PDIF 1		

Connectivity

Internet	Wired and Wireless / 802.11ac 2.4G/5G 2T2R,with DFS	Bluetooth	BT4.2 (Dual Mode)
----------	---	-----------	-------------------

Power

Input	100 to 240 V,50 / 60 Hz	Power Consumption	<360W
Standby Power Consumption	<0.5W		

Others

Noise	< 32 dB	Working Temperature	0 to 40℃
Storage Temperature	-20 to 65 ℃		

Accessory

Bluetooth Remote	1	1.5 m Power Cord	1
AAA Battery	2	Cleaning Cloth	1
